About Responsive Inspections

A responsive inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. A responsive inspection is conducted when RHRA receives information that the licensee may have failed to meet the standards of the *Retirement Homes Act, 2010* or its regulations (the “*RHA*”). An inspection being conducted does not imply that an allegation is substantiated or that a contravention of the RHA has occurred. A licensee is required to report to RHRA if they suspect harm or risk of harm to a resident. During a responsive inspection, an RHRA inspector may observe the operations of the home, interview relevant individuals, review records and other documentation, and determine whether the licensee’s management and staff have followed mandatory policies and practices designed to protect the welfare of residents.

Following a responsive inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If there is a serious incident or the licensee repeatedly does not meet the required standards, RHRA may take further action.

Concern(s)

During a responsive inspection, an inspector will focus primarily on the concern(s) which prompted the

inspection and may take various actions to determine whether the licensee is compliant with the RHA in relation to the concern(s). Any findings of non-compliance identified in relation to these concerns are listed below.

Concern #1: CON-5343-Improper or Incompetent Treatment or Care

RHRA Inspector Findings

A report was made to RHRA which included multiple allegations relating to the care of a resident. As part of the inspection in response to the report, the inspector reviewed records and videos relating to the resident, interviewed relevant staff and family. The inspector confirmed that the Licensee failed to ensure that the resident of the home had the required details in the plan of care regarding continence care and failed to comply with the plan of care details that were provided regarding toileting assistance.

Outcome

The Licensee submitted a plan to achieve compliance by Sat Aug 16, 2025. RHRA to confirm compliance by following up with the Licensee or by inspection.

Concern #2: CON-5344-Administrative issues

RHRA Inspector Findings

A report was made to RHRA which included allegations relating transfer and lift concerns of a resident. As part of the inspection in response to the report, the inspector reviewed records and videos relating to the resident and reviewed the home's policies for lift and transfers. The inspector confirmed that the Licensee failed to ensure that the resident's plan of care was updated to reflect the need for transfer and lift assistance for staff direction.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Concern #3: CON-5345-Abuse - Emotional

RHRA Inspector Findings

A report was made to RHRA regarding the alleged emotional abuse of a resident by staff members. As part of the inspection in response to the allegation, the inspector reviewed the Licensee's care policies and procedures, staff training records, the resident's care file, videos and interviewed staff and family. While the inspector was unable to confirm emotional abuse took place, the Licensee failed to follow their abuse policy as they did not immediately investigate this concern when it was brought forward by family.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a responsive inspection, an inspector may observe areas of non-compliance that are not related to the concern(s) which prompted the inspection. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat

contraventions at the time of this inspection.
