<p>Inspection Finding</p> <p>A female resident was described as having contractures of her legs, being in a fetal position, and was also fully dependent on staff for all ADL's. The Executive Director reported to the RHRA that the female resident had sustained bruising on her hand and a fractured ankle. There is inconclusive evidence for how the injuries occurred however it was determined that staff had failed to follow the Individual Service Plan by using improper lifts on several occasions. The failure of staff to provide the proper assistance to the resident jeopardized her safety.</p>
<p>Outcome</p> <p>Corrective action taken by the Licensee.</p>
