Inspection Finding

Three resident care plans were viewed during this inspection process. Only one was completed. Two of the residents had issues which required heightened monitoring, and these were not indicated at all on the plans of care. All three care plans were signed, however as the forms were blank, this did not document that the residents participated in the development of the care plan. Although the full assessment form has been revised, the three viewed during inspection, which were the latest residents admitted, did not include all required information.

Outcome

Corrective action required by the Licensee.

2. The Licensee failed to comply with O. Reg. 166/11, s. 15; Policy of zero tolerance of abuse and neglect.

Specifically, the Licensee failed to comply with the following subsection(s):

15. (3) The policy to promote zero tolerance of abuse and neglect of residents described in subsection 67 (4) of the Act shall,

- (e) provide that the licensee of the retirement home shall ensure that the resident and the resident’s substitute decision-makers, if any, are notified of the results of an investigation described in clause 67 (5) (e) of the Act immediately upon the completion of the investigation;
- (f) provide that the licensee of the retirement home shall ensure that the appropriate police force is immediately notified of any alleged, suspected or witnessed incident of abuse or neglect of a resident that the licensee suspects may constitute a criminal offence;

Inspection Finding

The home's abuse policy was not in alignment with the above noted areas.

Outcome

Corrective action required by the licensee.
