Inspection Finding

The inspector reviewed a sample of resident care files and found that three residents had expired plans of care without clear direction for staff; one recent new admission had no full assessment or plan of care created to identify the services required and one resident had not had an inter-disciplinary care conference as required for wound care needs. The Licensee failed to ensure that plans of care were being updated as required.

Outcome

At the time of the inspection, the Licensee was not in compliance. The home has since taken corrective action to achieve compliance.
