

FINAL INSPECTION REPORT
Under the Retirement Homes Act, 2010

Inspection Information	
Date of Inspection: June 13, 2023	Name of Inspector: Denise Tessier
Inspection Type: Routine Inspection	
Licensee: ACC-002419 - Thorncliffe Place Retirement Home Ltd.	
Retirement Home: Thorncliffe Place Retirement Home	
License Number: N0008	

About Routine Inspections
<p>A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents.</p> <p>Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the <i>RHA</i>. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the <i>RHA</i>.</p> <p>Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the <i>RHA</i>. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists.</p> <p>In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.</p> <p>If the licensee repeatedly does not meet the required standards, RHRA may take further action.</p>

Focus Areas
<p><i>During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.</i></p>
Focus Area #1: Behaviour Management and Dementia Care
<p>RHRA Inspector Findings The inspector reviewed a sample of resident care files and found one resident with known behaviours. The home had not implemented behaviour management strategies, interventions or details for the staff to properly monitor this resident as required.</p>
<p>Outcome At the time of the inspection, the Licensee was not in compliance. The home has since taken corrective action to achieve compliance.</p>
Focus Area #2: Emergency Plan

RHRA Inspector Findings

The inspector reviewed the Licensee's records of testing for their emergency plans and found that the testing for situations involving the loss of essential services had not been completed since 2021. The Licensee failed to ensure that testing was done annually as required.

Outcome

At the time of the inspection, the Licensee was not in compliance. The home has since taken corrective action to achieve compliance.

Focus Area #3: Resident Record, Assessment, Plan of Care**RHRA Inspector Findings**

The inspector reviewed a sample of resident care files and found that 4 residents did not have their plans of care approved appropriately, as there was no evidence that the plans had been approved by the residents or their substitute decision makers. Further, one resident receiving wound care and one resident requiring the use of PASDs did not have the required inter-disciplinary care conferences completed as required.

Outcome

At the time of the inspection, the Licensee was not in compliance. The home has since taken corrective action to achieve compliance.

Focus Area #4: Staff Training**RHRA Inspector Findings**

The inspector reviewed a sample of staff training records and found that 3 staff members had not received the required training at hire and 5 staff had not completed their annual training requirements since 2021. The Licensee failed to ensure that staff were trained as required.

Outcome

At the time of the inspection, the Licensee was not in compliance. The home has since taken corrective action to achieve compliance.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.

Additional Finding#1: Continence Care**RHRA Inspector Findings**

The inspector reviewed a sample of resident care files and the continence care program and found that 2 residents did not have detailed information for staff direction involving continence care routines and frequency. The Licensee failed to ensure that their continence care program was being followed as required.

Outcome

At the time of the inspection, the Licensee was not in compliance. The home has since taken corrective action to achieve compliance.
