About Routine Inspections
<p>A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.</p> <p>Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the <i>RHA</i>. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the <i>RHA</i>.</p> <p>Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the <i>RHA</i>. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.</p> <p>In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.</p> <p>If the licensee repeatedly does not meet the required standards, RHRA may take further action.</p>

Focus Areas
During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Complaints

RHRA Inspector Findings
As part of the routine inspection, the inspector reviewed the complaints log and interviewed staff and residents. The inspector identified that the Licensee failed to follow its procedure for complaints including providing a response to the person making the complaint and maintaining a written record of the nature of the complaint, action taken to resolve the complaint and final resolution of the complaint. The Licensee failed to ensure that their written record of a complaint included all the required elements.

Outcome
The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #2: Emergency Plan

RHRA Inspector Findings
During the routine inspection, the inspector reviewed the Licensee’s records for their emergency plans and evacuation and found that the home's written agreement with community partners for transportation of residents in the event of an evacuation had not been updated since 2021. The Licensee failed to ensure that agreements with community partners were updated annually as required.

Outcome
The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #3: Resident Record, Assessment, Plan of Care

RHRA Inspector Findings
As part of the routine inspection, the inspector reviewed a sample of residents' plans of care. There is a requirement that resident plans of care are updated as care needs change. The inspector found that not all the plans were updated at the time the residents’ care needs changed

regarding falls and responsive behaviours. The Licensee failed to ensure the plans of care are revised and updated in compliance with the legislation.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
