Retirement Home: Villa Elmsmere Villa	
License Number: N0385	

About Routine Inspections
<p>A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.</p> <p>Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the <i>RHA</i>. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the <i>RHA</i>.</p> <p>Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the <i>RHA</i>. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.</p> <p>In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.</p> <p>If the licensee repeatedly does not meet the required standards, RHRA may take further action.</p>

Focus Areas
<p><i>During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.</i></p>
Focus Area #1: Behaviour Management and Dementia Care
<p>RHRA Inspector Findings The Inspector reviewed numerous resident charts and found 1 resident had exhibited behaviours that posed a risk of harm to themselves or others in the home. The Licensee did not develop techniques and strategies for the residents. The Licensee failed to implement Behaviour Management strategies as prescribed.</p>
<p>Outcome The Licensee submitted a plan to achieve compliance by October 2, 2023. RHRA to confirm compliance by following up with the Licensee or by inspection.</p>
Focus Area #2: Complaints

RHRA Inspector Findings

The inspector reviewed the Licensee's complaints log and noted the record of the complaint did not include the nature of the complaint. The Licensee failed to ensure that the written record of complaints included all the required elements. Furthermore, there was no evidence of a quarterly analysis.

Outcome

The Licensee provided information indicating that corrective action was being taken, however, further action must be taken to achieve compliance with all areas outlined in the finding. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #3: Emergency Plan**RHRA Inspector Findings**

The inspector reviewed the Licensee's records of testing for their emergency plans and found that there is no record of testing of a full evacuation being completed at least every two years. Additionally, the arrangements with community agencies, involved in responding to an emergency were not current. The Licensee failed to conduct a full evacuation and failed to keep current all arrangements with community agencies, as required.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #4: Resident Record, Assessment, Plan of Care**RHRA Inspector Findings**

As part of the inspection, the inspector reviewed a sample of resident care files and found that 2 residents' plans of care were missing clear direction to the staff regarding care needs and services. The Licensee failed to ensure that clear direction was provided to the staff as required.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
