

FINAL INSPECTION REPORT
Under the *Retirement Homes Act, 2010*

Inspection Information

Date of Inspection: September 5, 2023

Name of Inspector: Julie Hebert

Inspection Type: Routine Inspection

Licensee: ACC-002906 - 1933878 Ontario Inc.

Retirement Home: Seacliff Manor

License Number: S0438

About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Emergency Plan

RHRA Inspector Findings

The inspector reviewed the Licensee's records of testing for their emergency plans and found that the testing for situations involving the loss of essential services, a missing resident, violent outbursts, and medical emergencies had not been completed in the past 12 months. In addition, the home had not completed a full evacuation in the previous 2 years. The Licensee failed to ensure that testing was done annually as required.

Outcome

The Licensee provided information indicating that corrective action was being taken, however, further action must be taken to achieve compliance with all areas outlined in the finding. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #2: Staff Training

RHRA Inspector Findings

The inspector reviewed a sample of training records in the areas of Zero tolerance of abuse, Bill of Rights, Infection control, Whistle Blower protection, PASDs, Fire prevention and safety, Complaints, and Behaviour management for all staff; and medication administration for the Unregulated Care provider staff. The inspector reviewed not only records for staff recently hired to determine compliance with orientation training, but also a sample of training records for those hired previously to determine compliance with annual training in these areas.

The inspector found that the orientation training in the areas required for all staff, had not all been completed. There were no Unregulated care staff hired in 2023.

For the annual training files reviewed, not all staff had completed the required training in 2022 or 2023, including medication administration training for the relevant Unregulated care staff.

The home was not able to determine that orientation and annual training was being completed in alignment with the regulations.

Outcome

The Licensee submitted a plan to achieve compliance by October 17, 2023. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
