Retirement Home: Chartwell Hollandview Trail Retirement Residence

License Number: T0458

About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Complaints

RHRA Inspector Findings

During the inspection the Inspector reviewed the homes complaint procedures. There is a requirement that the home must keep records demonstrating that a quarterly analysis of complaints received shall be reviewed. There was no documentation provided during the inspection that demonstrated an analysis had been completed.

Outcome

At the time of the inspection, the Licensee was not in compliance. The home has since taken corrective action to achieve compliance.

Focus Area #2: Resident Record, Assessment, Plan of Care

RHRA Inspector Findings

During the inspection the Inspector reviewed resident's assessments and plans of care. The inspection identified one resident who had not had the prescribed assessments completed and two residents who had plans of care but were not approved as prescribed.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #3: Staff Training

RHRA Inspector Findings

During the inspection, the Inspector reviewed staff training records. There is a requirement that new hires must complete mandatory training in several areas including the use of Personal Assistance Service Devices and Residents Bill of Rights. Further, all staff are to be trained annually on prescribed content. The inspection showed that one recent staff hire had not completed the mandatory training and no evidence was provided that a staff member had received the annual training.

Outcome

The Licensee submitted a plan to achieve compliance by Fri Nov 10 2023. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
