

**FINAL INSPECTION REPORT**  
**Under the *Retirement Homes Act, 2010***

**Inspection Information**

**Date of Inspection: October 26, 2023**

**Name of Inspector: Angela Butler**

**Inspection Type: Routine Inspection**

**Licensee: ACC-002761 - Lifetimes Limited Partnership**

**Retirement Home: Park Place Retirement**

**License Number: S0343**

**About Routine Inspections**

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

**Focus Areas**

*During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.*

**Focus Area #1: Emergency Plan**

**RHRA Inspector Findings**

The inspector reviewed the Licensee's records of testing for their emergency plans and found that the testing for situations involving a missing resident and violent outbursts had not been completed since 2022. Also, the epidemic/pandemic testing has not been tested. The licensee completed a full evacuation but did not provide sufficient documentation of what they did, how they accounted for all the residents and staff, what residents were involved, or whether they called their community partners. Furthermore, there are no current memorandums of understanding for transportation and shelter. The Licensee failed to ensure that testing was done annually as required, proper documentation for the emergency tests was provided, and that arrangements with community partners were up to date.

**Outcome**

The Licensee provided information indicating that corrective action was being taken, however, further action must be taken to achieve compliance with all areas outlined in the finding. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Focus Area #2: Resident Record, Assessment, Plan of Care****RHRA Inspector Findings**

The inspector reviewed a sample of resident care files and found that one resident did not have a completed assessment and therefore, the plan of care created did not reflect the needs of the resident. Furthermore, the inspector found that the resident was diabetic which was not reflected in the resident's plan of care. In addition, the resident's plan of care was not updated as their care needs changed involving their skin integrity. The Licensee failed to ensure the plans of care were in updated and completed in compliance with the legislation.

**Outcome**

The Licensee provided information indicating that corrective action was being taken, however, further action must be taken to achieve compliance with all areas outlined in the finding. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Focus Area #3: Staff Training****RHRA Inspector Findings**

The inspector reviewed a sample of training records for 3 staff in the areas of Zero tolerance of abuse, Bill of Rights, Infection control, Whistleblower protection, PASDs, Fire prevention and safety, Complaints, and Behaviour management and two of those staff members had not completed orientation training. The inspector reviewed not only records for staff hired in 2022 to determine compliance with orientation training but also a sample of training records for those hired before 2022 to determine compliance with annual training in these areas.

**Outcome**

The Licensee has demonstrated it has taken corrective action to achieve compliance.

**Additional Findings**

*During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.*
