

FINAL INSPECTION REPORT
Under the *Retirement Homes Act, 2010*

Inspection Information

Date of Inspection: November 21, 2023

Name of Inspector: Tania Buko

Inspection Type: Routine Inspection

Licensee: ACC-002693 - Lutheran Homes Kitchener-Waterloo

Retirement Home: Trinity Village Studios

License Number: T0008

About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Behaviour Management

RHRA Inspector Findings

As part of the routine inspection, the Inspector reviewed a sample of resident care files, the Licensee's policies and interviewed staff and found that a resident has elopement behaviours that pose a risk to themselves. The evidence showed the Licensee had failed to follow their behaviour management policy as there was insufficient evidence to support that strategies, interventions, and techniques to address and prevent the behaviours were developed and implemented for the resident including strategies for monitoring and that those were all documented in the resident's plan of care, as per the Licensee's behaviour management policy.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #2: Emergency Plan

RHRA Inspector Findings

The Inspector reviewed the Licensee's emergency plan, corresponding documents and interviewed staff and found the Licensee was unable to demonstrate that arrangements with community partners involved in responding to emergencies at the home were current. In addition, the Inspector found that the Licensee failed to test their emergency plan for situations involving an epidemic or pandemic. The Licensee failed to ensure areas of the emergency plan were compliant in the noted areas.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #3: Resident Record, Assessment, Plan of Care

RHRA Inspector Findings

The Inspector reviewed a sample of resident care files and found that a plan of care had not been fully developed for a new resident and a plan of care for another resident had not been approved by the resident or their substitute decision-maker as required. The Licensee failed to ensure all reviewed plans of care were compliant in the noted areas.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
