#### About Responsive Inspections

A responsive inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. A responsive inspection is conducted when RHRA receives information that the licensee may have failed to meet the standards of the *Retirement Homes Act, 2010* or its regulations (the “*RHA*”). An inspection being conducted does not infer that an allegation is substantiated or that a contravention of the *RHA* has occurred. A licensee is required to report to RHRA if they suspect harm or risk of harm to a resident. During a responsive inspection, an RHRA inspector may observe the operations of the home, interview relevant individuals, review records and other documentation, and determine whether the licensee’s management and staff have followed mandatory policies and practices designed to protect the welfare of residents.

Following a responsive inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If there is a serious incident or the licensee repeatedly does not meet the required standards, RHRA may take further action.

**Concern(s)**

*During a responsive inspection, an inspector will focus primarily on the concern(s) which prompted the inspection and may take various actions to determine whether the licensee is compliant with the RHA in relating to the concern(s). Any findings of non-compliance identified in relation to these concerns are listed below.*

**Concern #1: CON-7656-Complaints records****RHRA Inspector Findings**

The inspector reviewed the Licensee's complaints records. One complaint related to issues with meals was not fully documented. Specifically, the record of the complaint did not include a description of the actions taken to resolve the complaint, including the date of the action, time frames for action to be taken, and any follow-up action required, the final resolution of the complaint, and a description of the response provided. The Licensee failed to ensure that their written record of a complaint included all the required elements.

**Outcome**

The Licensee submitted a plan to achieve compliance by Sun Feb 25 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Concern #2: CON-7658-Plans of care****RHRA Inspector Findings**

The inspector reviewed a sample of resident care files. Each of the plans inspected did not contain clear details of services, goals, or directions to the staff who provide the care services to the residents. In one case, the plan of care was not approved by the resident or an approved person on behalf of the Licensee. In a second case, the plan of care was not approved by an approved person on behalf of the Licensee. The Licensee failed to ensure that all resident plans of care had been documented and approved as required.

**Outcome**

The Licensee submitted a plan to achieve compliance by Sun Feb 25 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Concern #3: CON-7659-Staff training****RHRA Inspector Findings**

The inspector reviewed the Licensee's staff training records. As of the date of inspection, none of the staff members had completed all of the required general training topics and seven staff members had not completed any training. Only one staff member had completed medication administration training. The Licensee failed to ensure that staff were trained as required.

**Outcome**

The Licensee submitted a plan to achieve compliance by Sun Feb 25 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Concern #4: CON-7660-Emergency plan****RHRA Inspector Findings**

The inspector reviewed the Licensee's records of testing for their emergency plans. There were not records to demonstrate testing for situations involving the loss of essential services, a missing resident, a medical emergency, a violent outburst, a test of the response to epidemics and pandemics, or a full

evacuation of the Home. There was no record of testing of the emergency kit of supplies, equipment and resources. The Licensee failed to ensure that testing was done annually as required.

**Outcome**

The Licensee submitted a plan to achieve compliance by Sun Feb 25 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Concern #5: CON-7661-Records**

**RHRA Inspector Findings**

The inspector reviewed the Licensee's records related to resident prescriptions and medication reviews (where completed). The Licensee did not have evidence to demonstrate that medications and other substances which were administered to two residents by staff of the Home had been prescribed by an authorized prescriber, as required.

**Outcome**

The Licensee submitted a plan to achieve compliance by Sun Feb 25 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Additional Findings**

*During a responsive inspection, an inspector may observe areas of non-compliance that are not related to the concern(s) which prompted the inspection. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.*
