

**FINAL INSPECTION REPORT**  
**Under the *Retirement Homes Act, 2010***

**Inspection Information**

**Date of Inspection:** January 29, 2024

**Name of Inspector:** Douglas Crust

**Inspection Type:** Routine Inspection

**Licensee:** ACC-002911 - DCMS GP (Canterbury Place) Inc.

**Retirement Home:** Canterbury Place Retirement Residence

**License Number:** T0059

**About Routine Inspections**

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

**Focus Areas**

*During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.*

**Focus Area #1: Emergency Plan**

**RHRA Inspector Findings**

The inspector reviewed the Licensee's records of testing for their emergency plans. The evidence demonstrated that the plan for loss of essential services and responding to epidemics and pandemics had not been tested in 2023. In addition, there were no records to demonstrate regular testing of the emergency kit of supplies, resources and equipment to be used in the event of an emergency affecting the Home. The Licensee failed to ensure that emergency plan testing was performed as required.

**Outcome**

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Additional Findings**

*During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.*
