<b>Inspection Type: Routine Inspection</b>

**About Routine Inspections**

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

**Focus Areas**

*During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.*

**Focus Area #1: Emergency Plan**

**RHRA Inspector Findings**

The inspector reviewed the Licensee's records of testing for their emergency plans and found there was no evidence to show the testing for situations involving the loss of essential services, a missing resident, medical emergencies, violent outbursts, and epidemics/pandemics had not been completed. Further, the emergency plan did not address epidemics and pandemics. The Licensee failed to ensure that the testing and emergency plan content requirements had been fully met.

**Outcome**

The Licensee submitted a plan to achieve compliance by Thu March 28, 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Focus Area #2: Resident Record, Assessment, Plan of Care****RHRA Inspector Findings**

The inspector reviewed a sample of resident care files and found that for three residents, the evidence did not demonstrate that the required reassessments had been completed. Further, the approval requirements had not been addressed for plans of care that had been reviewed and revised. The Licensee failed to ensure the reassessment and approval provisions had been fully met.

**Outcome**

The Licensee submitted a plan to achieve compliance by Thu March 28, 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Additional Findings**

*During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.*
