

FINAL INSPECTION REPORT
Under the *Retirement Homes Act, 2010*

Inspection Information	
Date of Inspection: January 22, 2024	Name of Inspector: Matthew John
Inspection Type: Routine Inspection	
Licensee: ACC-002950 - LL GP II Inc.	
Retirement Home: Roseglen Village	
License Number: T0575	

About Routine Inspections
<p>A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.</p> <p>Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the <i>RHA</i>. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the <i>RHA</i>.</p> <p>Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the <i>RHA</i>. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.</p> <p>In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.</p> <p>If the licensee repeatedly does not meet the required standards, RHRA may take further action.</p>

Focus Areas
<p><i>During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of residents, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.</i></p>
<p>Focus Area #1: Resident Record, Assessment, Plan of Care</p>

RHRA Inspector Findings

The inspector reviewed documentation within the home, including resident files, assessments, and plans of care. The inspector found that one resident experienced a change in care needs but was not reassessed and their plan of care was not revised. The inspector also found that another resident had a plan of care in place but there was no evidence of it being approved by either the resident or their substitute decision maker. The Licensee failed to ensure reassessment of a resident and revision of their plan of care occurred as required and failed to ensure approval of a resident's plan of care occurred as required.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.

Additional Finding#1: Falls Prevention**RHRA Inspector Findings**

The inspector reviewed documentation within the home, including resident files and Licensee's falls log. The inspector found that one resident had several falls in a short period of time in their suite. However, there was no evidence of corrective action taken in response to these falls. The inspector also found that two other residents fell in the common areas of the home and there was no evidence of corrective action taken in response to these falls either. The Licensee failed to follow their Falls Prevention Policy and document appropriate corrective actions in response to falls as required.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.
