

FINAL INSPECTION REPORT
Under the *Retirement Homes Act, 2010*

Inspection Information

Date of Inspection: 3/6/2024

Name of Inspector: Michele Davidson

Inspection Type: Routine Inspection

Licensee: ACC-002470 - Chartwell Master Care Corporation

Retirement Home: Chartwell Barton Retirement Residence

License Number: T0086

About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Emergency Plan

RHRA Inspector Findings

A routine inspection was conducted at the home. As part of the inspection, the Licensee's emergency response plan was reviewed. The inspector found that a test of the resources and partners involved in epidemics and pandemics had not been conducted. Further, tests of the response to a full building evacuation, and the loss of an essential service had not been completed within the prescribed timelines. Finally, the Licensee did not provide the inspector with evidence of arrangements with emergency partners and the inspector observed that supplies which were set aside to be used in response to an emergency had not been regularly audited.

Outcome

The Licensee submitted a plan to achieve compliance by Fri Apr 12 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #2: Staff Training**RHRA Inspector Findings**

During the routine inspection, a random sample of staff training records was reviewed. The inspector found that some staff, including three who were recently hired, had not received mandatory training in all required areas. Additionally, two more experienced staff had not received annual re-training.

Outcome

The Licensee submitted a plan to achieve compliance by Fri Mar 22 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
