

FINAL INSPECTION REPORT
Under the *Retirement Homes Act, 2010*

Inspection Information

Date of Inspection: April 9, 2024

Name of Inspector: Angela Newman

Inspection Type: Routine Inspection

Licensee: ACC-002470 - Chartwell Master Care Corporation

Retirement Home: Chartwell Thunder Bay Retirement Residence

License Number: N0077

About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Complaints

RHRA Inspector Findings

During a routine inspection, the inspector reviewed the Licensee's complaints log and noted that several recent complaints did not have compliant written records. Specifically, the record of the complaint did not include the dates which responses were provided to the complainant and descriptions of the responses, as well as the responses made in turn by the complainant. The Licensee failed to ensure that their written record of a complaint included all the required elements.

Outcome

The Licensee submitted a plan to achieve compliance by Tue Apr 30 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #2: Emergency Plan**RHRA Inspector Findings**

During the routine inspection, the inspector reviewed the Licensee's records of testing for their emergency plans and found that the testing for situations involving pandemic and epidemics had not been completed annually. Additionally, the Licensee's written agreement with community partners for transportation of residents in the event of an evacuation had not been updated since 2021. The Licensee failed to ensure its emergency plan was in compliance with legislation.

Outcome

The Licensee provided information indicating that corrective action was being taken, however, further action must be taken to achieve compliance with all areas outlined in the finding. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #3: Infection Prevention and Control**RHRA Inspector Findings**

As part of the routine inspection, the inspector reviewed records of the Licensee's infection prevention and control program and found the Licensee failed to post passive screening questions for COVID-19 at the entrance of the home as recommended by the Chief Medical Officer of Health. The Licensee failed to fully implement the required components of its infection prevention and control program.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #4: Resident Record, Assessment, Plan of Care**RHRA Inspector Findings**

As part of the routine inspection, the inspector reviewed a sample of residents' plan of care. There is a requirement that resident plans of care be updated as care needs change. The inspector found two care plans were not updated at the time the residents' care needs changed or every six months. In addition, the inspector found two resident care plans were not based on an assessment of the residents' needs and preferences in relation to falls risk management and behaviour management. The Licensee failed to ensure the care plans were in compliance with the legislation.

Outcome

The Licensee submitted a plan to achieve compliance by Tue Apr 30 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #5: Staff Training

RHRA Inspector Findings

As a part of the routine inspection, the inspector reviewed a sample of staff orientation and annual training records. The inspector found that one staff had not completed orientation training on personal assistance services devices. The Licensee failed to ensure that staff were trained as required.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
