

## FINAL INSPECTION REPORT

### Under the *Retirement Homes Act, 2010*

Inspection Information	
Date of Inspection: April 26, 2024	Name of Inspector: Douglas Crust
Inspection Type: Routine Inspection	
Licensee: ACC-003271 - Kingsberry Place Ltd.	
Retirement Home: Kingsberry Place Seniors Residence	
License Number: S0123	

#### About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

#### Focus Areas

*During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.*

#### Focus Area #1: Emergency Plan

**RHRA Inspector Findings**

The inspector reviewed the Licensee's records of testing for their emergency plans. The documentation available did not confirm that a test of the full evacuation of the Home or the Licensee's response to epidemics and pandemics had been tested, as prescribed. In addition, there was no evidence of arrangements with community partners for transportation of residents in the event of an evacuation of the Home. The Licensee failed to ensure that emergency plan testing was completed as required and current arrangements were in place with community partners as needed.

**Outcome**

The Licensee submitted a plan to achieve compliance by Mon Jun 10, 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Focus Area #2: Medications****RHRA Inspector Findings**

The inspector reviewed documentation related to medication administration in the Home. The inspector found no evidence that several medications which were observed as administered to two residents by staff had been prescribed by an authorized prescriber, as required. The Licensee failed to ensure that no drug is administered by staff in the home unless the drug has been prescribed for the resident by a person who is authorized to prescribe a drug.

**Outcome**

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Focus Area #3: Resident Record, Assessment, Plan of Care****RHRA Inspector Findings**

The inspector reviewed a sample of resident care files. The evidence demonstrated that the initial plan of care for one resident was not developed within the prescribed timeframe. In addition, the plan of care for another resident was not approved by the resident or their substitute decision maker as prescribed. The Licensee failed to ensure that plans of care were developed and approved as required.

**Outcome**

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Focus Area #4: Staff Training****RHRA Inspector Findings**

The inspector reviewed a sample of three staff training records for staff hired within the previous four months. The evidence demonstrated that none of the three staff completed any of the required training prior to commencing to work in the Home, as prescribed. In addition, as at the date of inspection, all three staff members had between three and eight training areas to complete. The Licensee failed to ensure that staff were trained prior to commencing to work in the Home, as prescribed.

**Outcome**

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Additional Findings**

*During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.*
