About Responsive Inspections
<p>A responsive inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. A responsive inspection is conducted when RHRA receives information that the licensee may have failed to meet the standards of the <i>Retirement Homes Act, 2010</i> or its regulations (the “<i>RHA</i>”). An inspection being conducted does not imply that an allegation is substantiated or that a contravention of the RHA has occurred. A licensee is required to report to RHRA if they suspect harm or risk of harm to a resident. During a responsive inspection, an RHRA inspector may observe the operations of the home, interview relevant individuals, review records and other documentation, and determine whether the licensee’s management and staff have followed mandatory policies and practices designed to protect the welfare of residents.</p> <p>Following a responsive inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the <i>RHA</i>. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the <i>RHA</i>.</p> <p>Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the <i>RHA</i>. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.</p> <p>In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.</p> <p>If there is a serious incident or the licensee repeatedly does not meet the required standards, RHRA may take further action.</p>

Concern(s)

*inspection and may take various actions to determine whether the licensee is compliant with the RHA in relation to the concern(s). Any findings of non-compliance identified in relation to these concerns are listed below.*

**Concern #1: CON-9110-Improper or Incompetent Treatment or Care**

**RHRA Inspector Findings**

The Licensee reported to RHRA an incident related to improper care and neglect of a resident by staff members. As part of the inspection in response to the allegation, the Inspector reviewed the Licensee's care policies and procedures, staff training records, the resident's care file, and interviewed staff, and a family member. The Inspector found that staff did not follow the home's policy regarding plans of care and the resident was not reassessed when their care needs changed. This went on for a period of 26 days and resulted in the resident being hospitalized and then subsequently passing away. As a result, these inactions jeopardized the health and safety of the resident and the Licensee failed to protect the resident from neglect.

**Outcome**

The Licensee submitted a plan to achieve compliance by Thu Aug 01 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Additional Findings**

*During a responsive inspection, an inspector may observe areas of non-compliance that are not related to the concern(s) which prompted the inspection. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.*
