

FINAL INSPECTION REPORT
Under the *Retirement Homes Act, 2010*

Inspection Information	
Date of Inspection: June 20, 2024	Name of Inspector: Julie Hebert
Inspection Type: Routine Inspection	
Licensee: ACC-002470 - Chartwell Master Care Corporation	
Retirement Home: Chartwell Collegiate Heights Retirement Residence	
License Number: N0074	

About Routine Inspections
A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents. Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the <i>RHA</i>. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the <i>RHA</i>. Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the <i>RHA</i>. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists. In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices. If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas
<i>During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.</i> Focus Area #1: Abuse and Neglect

RHRA Inspector Findings

While reviewing documentation and speaking to staff, the inspector learned of an incident of resident-to-resident physical abuse with injury. The home was not able to demonstrate that they had recognized the incident as resident-to-resident abuse and subsequently investigated the incident, nor had they reported the incident to the RHRA.

Outcome

The Licensee submitted a plan to achieve compliance by August 01, 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #2: Behaviour Management**RHRA Inspector Findings**

The inspector reviewed the charts for two residents who were exhibiting responsive behaviours, one of which was a resident who had experienced incidents of elopement. The home was not able to demonstrate that they had implemented strategies and techniques to prevent and address responsive behaviours, nor were they able to demonstrate that the residents had been monitored following each of these incidents.

Outcome

The Licensee submitted a plan to achieve compliance by August 01, 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #3: Resident Record, Assessment, Plan of Care**RHRA Inspector Findings**

The inspector reviewed several resident charts as part of the routine inspection. The inspector found that several of the plans of care did not include the required information. Firstly, not all plans of care included clear directions and goals for the care services the staff were providing. Secondly, they did not include all the care needs and preferences of the residents. Lastly, they were not all updated as residents' care needs changed.

The Licensee was not able to demonstrate that all residents' plans of care were in compliance with the regulations.

Outcome

The Licensee submitted a plan to achieve compliance by August 01, 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #4: Staff Training**RHRA Inspector Findings**

The inspector reviewed a sample of training records in the areas of Zero tolerance of abuse, Bill of Rights, Infection control, Whistle Blower protection, Personal Assistive Service Devices (PASDs), Fire prevention and safety, Emergency plans, Injury prevention, Complaints, Behaviour management, and relevant Care services. The inspector reviewed not only records for staff recently hired to determine compliance with orientation training, but also a sample of training records for those hired previously to determine compliance with annual training in these areas.

The inspector found that not all staff were trained at orientation or annually on care services. This was an area of education provided during the previous inspection.

The home was not able to demonstrate that orientation and annual training was being completed in alignment with the regulations.

Outcome

The Licensee submitted a plan to achieve compliance by August 01, 2024. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
