Under the *Retirement Homes Act, 2010*

Inspection Information

Date of Inspection: November 27, 2024

Name of Inspector: Kate Fish

Inspection Type: Routine Inspection

Licensee: ACC-002824 - Tendercare Nursing Homes Limited

Retirement Home: McNicoll Manor/Moll Berczy Haus

License Number: T0069

About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Complaints

RHRA Inspector Findings

At the time of inspection, the licensee was unable to produce records of complaints for the home. The licensee indicated that they could not locate the documents. The Licensee failed to ensure that there was a written record of complaints that included all the required elements.

Outcome

The Licensee must take corrective action to achieve compliance.

Focus Area #2: Emergency Plan**RHRA Inspector Findings**

At time of inspection, the licensee was asked to produce records of emergency testing in the following areas: missing resident, medical emergency, full evacuation, violent outbursts, pandemic planning, and loss of essential services. The licensee was unable to produce evidence that testing in the listed areas had been completed as required.

Outcome

At the time of the inspection, the Licensee was not in compliance. The home has since taken corrective action to achieve compliance.

Focus Area #3: Infection Prevention and Control**RHRA Inspector Findings**

At time of inspection, the licensee was unable to produce records of consultation with their local medical officer of health in the past 12 months as prescribed.

Outcome

At the time of the inspection, the Licensee was not in compliance. The home has since taken corrective action to achieve compliance.

Focus Area #4: Resident Record, Assessment, Plan of Care**RHRA Inspector Findings**

The inspector reviewed a sample of resident care files including Plans of Care (POC) and found that four Plans of Care had not been approved by the resident or their substitute decision maker, nor the Director of Wellness.

Outcome

At the time of the inspection, the Licensee was not in compliance. The home has since taken corrective action to achieve compliance.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
