About Routine Inspections
<p>A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.</p> <p>Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the <i>RHA</i>. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the <i>RHA</i>.</p> <p>Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the <i>RHA</i>. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.</p> <p>In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.</p> <p>If the licensee repeatedly does not meet the required standards, RHRA may take further action.</p>

Focus Areas
<p><i>During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas.
