

FINAL INSPECTION REPORT
Under the *Retirement Homes Act, 2010*

Inspection Information

Date of Inspection: January 7, 2025

Name of Inspector: Tania Buko

Inspection Type: Routine Inspection

Licensee: ACC-002486 - Sienna-Sabra LP

Retirement Home: Aspira Cedar Crossing Retirement Living

License Number: S0544

About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Abuse and Neglect

RHRA Inspector Findings

As part of the routine inspection, the Inspector reviewed the Licensee's policies and incident reports and found the Licensee failed to report to the Registrar two incidents of alleged financial abuse as required. In addition, the Licensee was unable to demonstrate that the directives of their zero tolerance of abuse and neglect policy were fully followed as there was insufficient evidence the incidents were reported to the police and to the resident's substitute decision-makers, and that the resident's substitute decision-makers were advised of the results of the investigations.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #2: Complaints**RHRA Inspector Findings**

A review of the Licensee's complaints log showed a lack of evidence that the complaints received and managed by the home had been analyzed on a quarterly basis. The Licensee failed to fully follow their complaints policy.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #3: Emergency Plan**RHRA Inspector Findings**

The Inspector reviewed the Licensee's records of testing for their emergency plans and found insufficient evidence that the testing for situations involving medical emergencies had been completed. The Licensee failed to ensure that testing was done annually as required.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #4: Staff Training**RHRA Inspector Findings**

The Inspector reviewed a sample of staff training records and interviewed staff and found two staff had not completed training prior to working in the home in the Licensee's complaints, personal services assistance devices, infection prevention and control, and zero tolerance of abuse and neglect policies, the evacuation plan, fire safety, whistleblowing and resident's bill of rights. In addition, the Licensee was unable to demonstrate that two staff who administer medications completed training in medication administration on an annual basis, and that one staff member who administered medications had completed the training at all.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
