

**FINAL INSPECTION REPORT**  
**Under the *Retirement Homes Act, 2010***

**Inspection Information**

**Date of Inspection:** January 22, 2025

**Name of Inspector:** Angela Butler

**Inspection Type:** Routine Inspection

**Licensee:** ACC-002975 - AMG London Inc.

**Retirement Home:** The Manor Village at London

**License Number:** S0396

**About Routine Inspections**

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

**Focus Areas**

*During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.*

**Focus Area #1: Emergency Plan**

**RHRA Inspector Findings**

As part of the routine inspection, the inspector reviewed the licensee's emergency plan testing involving epidemics/pandemics and found that testing had not been completed within the last 12 months. The licensee failed to ensure that emergency plan testing for epidemics/pandemics was completed annually.

**Outcome**

The Licensee has demonstrated it has taken corrective action to achieve compliance.

**Focus Area #2: Resident Record, Assessment, Plan of Care****RHRA Inspector Findings**

The inspector reviewed a sample of resident care files and found that one resident did not have their plan of care updated when their care needs changed. Also, there were two resident files reviewed who reside in the memory care unit. In reviewing their plans of care, there were no details, goals, or interventions for Dementia Care. The licensee failed to ensure that plans of care were updated in accordance with the legislation and that there were details, goals, and interventions for all care services the licensee provides.

**Outcome**

The Licensee provided information indicating that corrective action was being taken, however, further action must be taken to achieve compliance with all areas outlined in the finding. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Additional Findings**

*During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.*
