About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Complaints

RHRA Inspector Findings

During the routine Inspection, the inspector reviewed the Licensee's complaints log and noted that the home was unable to provide evidence of a quarterly review and analysis of the complaints in the home. The Licensee failed to ensure that their written record of a complaint included all the required elements.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #2: Emergency Plan**RHRA Inspector Findings**

As part of the routine inspection, the inspector reviewed the Licensee's records of testing for their emergency plans and found that the testing for situations involving the loss of essential services, medical emergencies, a violent person, a missing resident and pandemics and epidemics had not been completed. Additionally, the Licensee was unable to provide evidence that the home, at least once every two years, conduct a planned evacuation of the retirement home. The home also failed to keep current all arrangements with community agencies, partner facilities and resources that will be involved in responding to an emergency, as required. The Licensee failed to comply with several aspects of the requirements of the RHA regarding the Home's Emergency Plan.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #3: Medications**RHRA Inspector Findings**

During the inspection, the inspector reviewed health files for multiple residents and found that the Licensee was unable to provide evidence that medication, administered to a resident by staff of the home, was prescribed for the resident by a person who is authorized to prescribe a drug, as required.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #4: Resident Record, Assessment, Plan of Care**RHRA Inspector Findings**

The inspector reviewed a sample of resident care files and found that 4 residents did not have their plans of care approved appropriately, as there was no evidence that the most recent plans of care had been approved by the residents or their substitute decision makers. Additionally, the Licensee failed to provide evidence that an Interdisciplinary Care Conference was held for a resident with a wound and skin issues, and also failed to provide evidence that the plans of care were based on an assessment or reassessment for 3 of the residents reviewed. The Licensee failed to ensure that all resident plans of care are completed and approved as required.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #5: Staff Training

RHRA Inspector Findings

During the Routine Inspection, the inspector reviewed the training records for 3 staff members and found that the home was unable to provide evidence the staff reviewed had completed the mandatory training annually or upon hire. The Licensee failed to ensure that staff are trained as required.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
