Retirement Home: Pearl and Pine Retirement Residence	
License Number: S0352	

About Routine Inspections
<p>A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.</p> <p>Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the <i>RHA</i>. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the <i>RHA</i>.</p> <p>Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the <i>RHA</i>. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.</p> <p>In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.</p> <p>If the licensee repeatedly does not meet the required standards, RHRA may take further action.</p>

Focus Areas
<p><i>During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.</i></p>
Focus Area #1: Abuse and Neglect

RHRA Inspector Findings

When reviewing the complaints records and associated documents, the inspector identified allegations of financial abuse unrelated to the purpose of the inspection. Three residents reported different amounts of money were taken from their suites. The Licensee failed to report these allegations of theft to the RHRA. Further, the Licensee did not interview relevant staff members and did not notify police of the allegations of theft.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #2: Emergency Plan**RHRA Inspector Findings**

The inspector reviewed the Licensee's records of testing for their emergency plans in 2024. The evidence provided demonstrated that staff received training in the procedures on responding to a violent outburst but a test of this procedure did not take place in 2024, as prescribed. The Licensee failed to ensure that testing was done annually, as required.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #3: Resident Record, Assessment, Plan of Care**RHRA Inspector Findings**

The inspector reviewed a sample of resident care files. The evidence showed that the initial plans of care for three residents were not developed within the prescribed time frame. The Licensee failed to ensure that all resident plans of care were developed according to the prescribed period of time.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
