About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The

areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Emergency Plan

RHRA Inspector Findings

As part of the routine inspection, the inspector reviewed the Licensee's records of their emergency plans. The inspector found the Licensee failed to update its annual agreement with a partner to provide transportation in the event of an evacuation. The Licensee failed to ensure that its emergency plan was updated annually as required.

Outcome

The Licensee submitted a plan to achieve compliance by May 1, 2025. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #2: Staff Training

RHRA Inspector Findings

As part of the routine inspection, the inspector reviewed a sample of staff training records in the areas of zero tolerance of abuse, resident bill of rights, infection control, whistle blower protection, personal assistance services devices, fire prevention and safety, emergency plan, complaints, and behaviour management. The inspector found that all staff were not trained on the Licensee's policies related to zero tolerance of abuse, behaviour management, complaints, personal assistance services devices, evacuation, and infection control program. The Licensee was not able to demonstrate that orientation and annual training were completed in alignment with the regulations.

Outcome

The Licensee submitted a plan to achieve compliance by May 1, 2025. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
