Retirement Home: Muskoka Hills Retirement Villa Inc.	
License Number: N0360	

#### About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

#### Focus Areas

*During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.*

#### Focus Area #1: Emergency Plan

#### RHRA Inspector Findings

During the routine inspection, the inspector reviewed the home's emergency resource supplies and equipment vital for emergency response and found that the testing of all such resources, supplies and

equipment was not completed in full. The Licensee failed to ensure that testing of resources, supplies, and equipment vital for an emergency response was done as required.

**Outcome**

The Licensee has demonstrated it has taken corrective action to achieve compliance.

**Focus Area #2: Resident Record, Assessment, Plan of Care**

**RHRA Inspector Findings**

As part of the routine inspection the inspector reviewed a sample of resident charts. The inspector found that one resident's plan of care was not updated at the time the resident's care needs changed, in relation to fall risk management, and that six residents did not have their plans of care approved by a member of the College of Nurses of Ontario. The Licensee failed to ensure the plans were in compliance with the legislation.

**Outcome**

The Licensee has demonstrated it has taken corrective action to achieve compliance.

**Additional Findings**

*During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.*

**Not Applicable**

**Current Inspection – Citations**

*Citations relating to the above Focus Areas or Additional Findings made during the current inspection are listed below.*

**Not Applicable**

**Closed Citations**

*During an inspection, an inspector may follow-up with areas of non-compliance cited during a previous inspection, or verify compliance with areas initially cited during the current inspection. The inspector has verified that at the time of this report, the licensee was able to demonstrate that the following areas have come into compliance.*
