

**FINAL INSPECTION REPORT**  
Under the *Retirement Homes Act, 2010*

**Inspection Information**

**Date of Inspection:** August 26, 2025

**Name of Inspector:** Kate Fish

**Inspection Type:** Routine Inspection

**Licensee:** ACC-003072 - 1952840 Ontario Inc.

**Retirement Home:** The Dynasty of Port Hope Retirement Residence

**License Number:** T0515

**About Routine Inspections**

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

**Focus Areas**

*During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.*

**Focus Area #1: Medications**

**RHRA Inspector Findings**

As part of a routine inspection a sample of resident care files were reviewed. There is a requirement

that for any medication being administered by the home, there is accompanying documentation which confirms that the drug was prescribed by a person who is authorized to do so. The inspector was unable to find evidence of these records for three residents.

**Outcome**

At the time of the inspection, the Licensee was not in compliance. The home has since taken corrective action to achieve compliance.

**Focus Area #2: Staff Training**

**RHRA Inspector Findings**

As part of a routine inspection employee training records were reviewed. There is a requirement that prior to a staff member commencing work in a retirement home they must receive training in the following areas: residents bill of rights, zero tolerance of abuse and neglect, PASD policy, injury prevention, fire prevention, emergency evacuation plan, infection prevention and control, and the home's complaints procedure. The inspector found that of the three employee files reviewed, two failed to meet this requirement.

**Outcome**

The Licensee provided information indicating that corrective action was being taken, however, further action must be taken to achieve compliance with all areas outlined in the finding. RHRA to confirm compliance by following up with the Licensee or by inspection.

**Additional Findings**

*During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.*
