

FINAL INSPECTION REPORT
Under the *Retirement Homes Act, 2010*

Inspection Information

Date of Inspection: November 5, 2025

Name of Inspector: Angela Newman

Inspection Type: Routine Inspection

Licensee: Nine Mile Villa Inc.

Retirement Home: Nine Mile Villa Inc.

License Number: S0419

About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Medications

RHRA Inspector Findings

As part of the routine inspection, the inspector reviewed the Licensee's medication administration processes and found the Licensee failed to ensure there are written records that drugs were prescribed for a resident by a person who is authorized to prescribe a drug. The Licensee failed to ensure compliance with legislation regarding medication administration.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #2: Resident Record, Assessment, Plan of Care**RHRA Inspector Findings**

As part of the routine inspection, the inspector reviewed a sample of residents' plans of care. With resident consent, Licensees are required to ensure a resident's plan of care sets out the planned care services for the resident that external care providers will provide including the details and goals of those services. The inspector found one resident's plan of care was lacking this information regarding assistance with bathing.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
