About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Abuse and Neglect

RHRA Inspector Findings

As part of this inspection the inspector reviewed the zero tolerance of abuse policy and found that the policy did not contain an explanation of prohibition of borrowing as prescribed. The licensee failed to ensure the policy included all required content.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #2: Complaints**RHRA Inspector Findings**

The inspector reviewed the Licensee's complaints log and noted that the complaints did not have a compliant written record. Specifically, the record of the complaint did not include, the nature of the complaint, type of action taken to resolve the complaint, the dates which responses were provided to the complainant and descriptions of the responses, as well as the responses made in turn by the complainant. The Licensee failed to ensure that their written record of complaints included all the required elements.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #3: Emergency Plan**RHRA Inspector Findings**

The inspector reviewed the Licensee's records of testing for their emergency plans and found that there was no evidence of a full evacuation for the last two years. The Licensee failed to ensure that a full evacuation was completed every two years as prescribed.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #4: Medications**RHRA Inspector Findings**

As part of the inspection, the inspector observed medication administration and confirmed that drugs or other substances were not always stored in a locked and secured medication cart. Additionally, the inspector found that one resident did not have a written record noting the time and date on which the medications were administered. The Licensee failed to ensure that the drugs or other substances are stored in a medication cart that is locked and secure and failed to ensure there was a completed written record as prescribed.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #5: Resident Record, Assessment, Plan of Care**RHRA Inspector Findings**

The inspector reviewed a sample of resident care files and found that 1 resident is receiving wound care from an external care provider, but the wound care was not reflected in the plan of care. Furthermore, the resident was not assessed by a regulated health professional as required for persons requiring skin

and wound care; nor was there evidence of an interdisciplinary care conference for a resident receiving wound care. Lastly, the inspector found one additional plan of care was missing clear direction to the staff regarding care services. The Licensee failed to ensure that the development and implementation of the plans of care as required.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #6: Staff Training

RHRA Inspector Findings

The inspector reviewed a sample of training records in the areas of Zero tolerance of abuse, Bill of Rights, Infection control, Whistle Blower protection, Personal Assistive Service Devices (PASDs), Fire prevention and safety, Emergency plans, Injury prevention, Complaints, Behaviour management. The inspector reviewed staff training records and found that 4 staff members had not completed training on the listed topics upon hire. The Licensee failed to ensure that staff were trained as required.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
