

FINAL INSPECTION REPORT
Under the *Retirement Homes Act, 2010*

Inspection Information

Date of Inspection: 02/12/2025

Name of Inspector: Julie Hebert

Inspection Type: Routine Inspection

Licensee: ACC-002761 - Lifetimes Limited Partnership

Retirement Home: Devonshire Retirement Residence

License Number: S0346

About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee’s management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Resident Record, Assessment, Plan of Care

RHRA Inspector Findings

As part of the routine inspection, the inspector reviewed a sample of residents' plan of care. There is a requirement under the Retirement Homes Act that resident plans of care be updated as care needs change or minimally every 6 months. The inspector found that not all of the plans were updated every six months. The Licensee failed to ensure the plans of care were revised and updated in compliance with the legislation.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #2: Staff Training**RHRA Inspector Findings**

The inspector reviewed a sample of training records in the areas of Zero tolerance of abuse (ZTA), Bill of Rights, Infection control, Whistle Blower protection, Personal Assistive Service Devices (PASDs), Fire prevention and safety, Emergency plans, Injury prevention, Complaints, Behaviour management, and relevant Care services. The inspector reviewed not only records for staff recently hired to determine compliance with orientation training, but also a sample of training records for those hired previously to determine compliance with annual training in these areas.

The inspector found that the home had not included the policies of ZTA, complaints and PASDs for orientation training after August 2025. In addition, two of the new staff had not completed training on infection control.

The home was not able to determine that orientation training was being completed in alignment with the regulations.

Outcome

The Licensee submitted a plan to achieve compliance by December 22, 2025. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.

Not Applicable**Current Inspection – Citations**

Citations relating to the above Focus Areas or Additional Findings made during the current inspection are listed below.

The Licensee failed to comply with the RHA s. 65. (2); Training**s. 65. (2); Training**

65. (2) Every licensee of a retirement home shall ensure that no staff work in the home unless they have received training in,

Specifically, the Licensee failed to comply with the following subsection(s):

s. 65. (2), (b)

(b) the licensee's policy mentioned in subsection 67 (4) to promote zero tolerance of abuse and neglect of residents;

s. 65. (2), (d)

(d) the licensee's policy mentioned in subsection 68 (3) regarding the use of personal assistance services devices for residents;

The Licensee failed to comply with the O. Reg. 166/11 s. 14. (1); Staff training

s. 14. (1); Staff training

14. (1) For the purposes of clause 65 (2) (j) of the Act, every licensee of a retirement home shall ensure that all staff who work in the home receive training in the procedure described in subsection 73 (1) of the Act for a person to complain to the licensee.

The Licensee failed to comply with the O. Reg. 166/11 s. 27. (9); Infection prevention and control program

s. 27. (9); Infection prevention and control program

27. (9) The licensee shall ensure that each staff member who works in the retirement home receives training on how to reduce the incidence of infectious disease transmission, including,

Specifically, the Licensee failed to comply with the following subsection(s):

s. 27. (9), (a)

(a) the need for and method of maintaining proper hand hygiene and method of preventing cross contamination, including proper handling of soiled linens, the protection of uniforms, and the separation of clean and dirty items;

s. 27. (9), (b)

(b) the need for and process of reporting, providing surveillance of and documenting incidents of infectious illness.

Closed Citations

During an inspection, an inspector may follow-up with areas of non-compliance cited during a previous inspection, or verify compliance with areas initially cited during the current inspection. The inspector has verified that at the time of this report, the licensee was able to demonstrate that the following areas have come into compliance.

Retirement Homes Act, 2010:

s. 62. (12); Reassessment and revision

62. (12) The licensee shall ensure that the resident is reassessed and the plan of care reviewed and revised at least every six months and at any other time if, in the opinion of the licensee or the resident,

NOTICE

The Final Inspection Report is being provided to the Licensee, the Registrar of the RHRA and the home's Residents' Council, if any.

Section 55 of the *RHA* requires that the Final Inspection Report be posted in the home in a conspicuous and easily accessible location. In addition, the Licensee must ensure that copies of every Final Inspection Report from the previous two (2) years are made available in the Home, in an easily accessible location.

The Registrar's copy of the Final Inspection Report, as it appears here, will be included on the RHRA Retirement Home Database available online at <http://www.rhra.ca/en/retirement-home-database>.
