

**FINAL INSPECTION REPORT**  
**Under the *Retirement Homes Act, 2010***

<b>Inspection Information</b>	
<b>Date of Inspection:</b> December 2, 2025	<b>Name of Inspector:</b> Antonette Whitley-Scott
<b>Inspection Type:</b> Routine Inspection	
<b>Licensee:</b> ACC-002407 - 873888 Ontario Limited	
<b>Retirement Home:</b> Dowling Rest Home	
<b>License Number:</b> T0409	

<b>About Routine Inspections</b>
A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents.
Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the <i>RHA</i> . If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the <i>RHA</i> .
Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the <i>RHA</i> . The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists.
In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.
If the licensee repeatedly does not meet the required standards, RHRA may take further action.

<b>Focus Areas</b>
<i>During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the <i>RHA</i> in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.</i>

<b>Focus Area #1: Behaviour Management</b>
<b>RHRA Inspector Findings</b> The inspector reviewed the Plan of Care for a resident who is reported to constantly exhibit behavioral issues and found that the Home had not documented strategies to address her behavior. The Licensee failed to develop and implement strategies for interventions to prevent and address resident

behaviours that pose a risk to the resident or others in the home.

**Outcome**

The Licensee must take corrective action to achieve compliance.

**Focus Area #2: Resident Record, Assessment, Plan of Care**

**RHRA Inspector Findings**

The inspector reviewed a sample of resident care files and found that one resident had not been reassessed, nor was their plan of care reviewed and revised at least every six months, as required. Additionally, for this resident and another resident, despite noted changes in their care needs, there was no documented review or update made to the plans of care to reflect those changes. Furthermore, the inspector found that two residents did not have their plans of care appropriately approved, as there was no evidence that the plans had been approved by the residents or their substitute decision-makers, nor by the responsible person from the home. As a result, the licensee failed to ensure that all resident plans of care were approved as required. The licensee also failed to ensure that residents were reassessed and that their plans of care were reviewed and revised at least every six months, as well as when residents' care needs changed, as required.

**Outcome**

The Licensee must take corrective action to achieve compliance.

**Additional Findings**

*During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.*
