

**FINAL INSPECTION REPORT**  
**Under the *Retirement Homes Act, 2010***

Inspection Information	
<b>Date of Inspection: March 9, 2026</b>	<b>Name of Inspector: Melissa Meikle</b>
<b>Inspection Type: Responsive Inspection – Complaint</b>	
<b>Licensee: ACC-010370 - OKC Residences Limited</b>	
<b>Retirement Home: Grace Hill Retirement Community</b>	
<b>License Number: N02049</b>	

#### About Responsive Inspections

A responsive inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. A responsive inspection is conducted when RHRA receives information that the licensee may have failed to meet the standards of the *Retirement Homes Act, 2010* or its regulations (the “RHA”). An inspection being conducted does not imply that an allegation is substantiated or that a contravention of the RHA has occurred. A licensee is required to report to RHRA if they suspect harm or risk of harm to a resident. During a responsive inspection, an RHRA inspector may observe the operations of the home, interview relevant individuals, review records and other documentation, and determine whether the licensee’s management and staff have followed mandatory policies and practices designed to protect the welfare of residents.

Following a responsive inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home’s Residents’ Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If there is a serious incident or the licensee repeatedly does not meet the required standards, RHRA may take further action.

#### Concern(s)

*During a responsive inspection, an inspector will focus primarily on the concern(s) which prompted the*

*inspection and may take various actions to determine whether the licensee is compliant with the RHA in relation to the concern(s). Any findings of non-compliance identified in relation to these concerns are listed below.*

**Concern #1: CON-8715-Improper or Incompetent Treatment or Care - Failure to Follow Process - Lifts**

**RHRA Inspector Findings**

A report was made to RHRA regarding alleged improper care of a resident related to the use of a mechanical lift. As part of the inspection in response to the report, the inspector reviewed records relating to the resident, staff training, relevant policies, and interviewed staff. The inspector found that the Licensee failed to ensure that the resident's plan of care was updated to include the use of a mechanical lift and failed to ensure that the interdisciplinary care conference results were part of the plan of care. Staff confirmed that manual 2 person transfers had occurred despite the resident having the recommendations of using a mechanical lift. The Licensee failed to ensure that the plan of care was revised to reflect a change in the resident's care needs and failed to ensure that the results of the interdisciplinary care conference were part of the plan of care.

**Outcome**

The Licensee has demonstrated it has taken corrective action to achieve compliance.

**Additional Findings**

*During a responsive inspection, an inspector may observe areas of non-compliance that are not related to the concern(s) which prompted the inspection. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.*

**Not Applicable**

**Current Inspection – Citations**

*Citations relating to the above Concerns or Additional Findings made during the current inspection are listed below.*

**Not Applicable**

**Closed Citations**

*During an inspection, an inspector may follow-up with areas of non-compliance cited during a previous inspection, or verify compliance with areas initially cited during the current inspection. The inspector has verified that at the time of this report, the licensee was able to demonstrate that the following areas have come into compliance.*

**Retirement Homes Act, 2010:**

**s. 62. (12); Reassessment and revision**

62. (12) The licensee shall ensure that the resident is reassessed and the plan of care reviewed and revised at least every six months and at any other time if, in the opinion of the licensee or the resident,

**s. 62. (12), (b)**

(b) the resident's care needs change or the care services set out in the plan are no longer necessary;

**Ontario Regulation 166/11:**

**s. 47. (5); Development of plan of care**

47. (5) If an assessment of a resident indicates that the resident's care needs may include dementia care, skin and wound care or the use of a personal assistance services device, the licensee shall ensure that an interdisciplinary care conference is held as part of the development of the resident's plan of care and that the resident's plan of care takes into account the results of the care conference.

**NOTICE**

The Final Inspection Report is being provided to the Licensee, the Registrar of the RHRA and the home's Residents' Council, if any.

Section 55 of the *RHA* requires that the Final Inspection Report be posted in the home in a conspicuous and easily accessible location. In addition, the Licensee must ensure that copies of every Final Inspection Report from the previous two (2) years are made available in the Home, in an easily accessible location.

The Registrar's copy of the Final Inspection Report, as it appears here, will be included on the RHRA Retirement Home Database available online at <http://www.rhra.ca/en/retirement-home-database>.
