

FINAL INSPECTION REPORT

Under the *Retirement Homes Act, 2010*

Inspection Information

Date of Inspection: May 11, 2026

Name of Inspector: Sarah Bradshaw

Inspection Type: Routine Inspection

Licensee: ACC-002838 - Eden Place Retirement Home & Wellness Ltd.

Retirement Home: Eden Place Retirement Home

License Number: N0503

About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Abuse and Neglect

RHRA Inspector Findings

The inspector found evidence through interviews with witnesses that an incident of resident-to-resident abuse and an incident of financial abuse had occurred and had not been reported to the RHRA. The

Licensee failed to ensure that a suspected incident of abuse was reported as required.

Outcome

The Licensee provided information indicating that corrective action was being taken, however, further action must be taken to achieve compliance with all areas outlined in the finding. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #2: Emergency Plan

RHRA Inspector Findings

The inspector reviewed the Licensee's records of testing for their emergency plans and found that there is no record of testing for situations involving the loss of essential services, medical emergency, violent outburst and a missing resident since 2024. The Licensee failed to ensure that testing was done annually as required. Furthermore, there was no evidence of a full evacuation being completed at least every two years as required.

Outcome

The Licensee submitted a plan to achieve compliance by Wednesday July 15, 2026. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #3: Maintenance

RHRA Inspector Findings

During the inspection, the inspector observed hazardous substances such as cleaning chemicals were left unattended and accessible to residents in the home. The Licensee failed to ensure all hazardous substances were inaccessible to residents at all times.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #4: Medications

RHRA Inspector Findings

The inspector reviewed the home's oversight of medication administration during the inspection. The Director of Care advised the inspector that they were not willing to assume responsibility for supervising medication administration performed by the Unregulated Care Providers (UCPs) in place. The Licensee failed to ensure that a Regulated Health Professional was appointed to supervise medication administration, as required.

Outcome

At the time of the inspection, the Licensee was not in compliance. The home has since taken corrective action to achieve compliance.

Focus Area #5: Resident Record, Assessment, Plan of Care

RHRA Inspector Findings

The inspector reviewed a sample of resident care files and found that the Licensee failed to ensure that two residents were reassessed and that the plan of care was reviewed and revised at least every six months as required.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #6: Staff Training

RHRA Inspector Findings

The inspector reviewed the staff training records and found that 1 staff member had not completed their required training prior to working in the home in the areas of Bill of Rights, Infection control, Whistle Blower protection, Personal Assistive Service Devices (PASDs), Injury prevention, Complaints, Infection Control and relevant Care services. Furthermore, there was no annual training in the procedures applicable to the administration of the drug. The Licensee failed to ensure that staff training was completed at hire and annually as required.

Outcome

The Licensee provided information indicating that corrective action was being taken, however, further action must be taken to achieve compliance with all areas outlined in the finding. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
