About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Behaviour Management

RHRA Inspector Findings

The Inspector reviewed resident charts and found 2 residents had exhibited behaviours and 2 that posed a risk of harm to themselves or others in the home. The Licensee did not implement techniques or strategies for these residents. The Licensee failed to implement Behaviour Management strategies as prescribed.

Outcome

The Licensee submitted a plan to achieve compliance by July 24, 2026. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #2: Medications**RHRA Inspector Findings**

As part of the inspection, the inspector observed medication administration and confirmed that drugs or other substances were not always stored in a locked and secured medication cart. The Licensee failed to ensure that the drugs or other substances are stored in a medication cart that is locked and secure as prescribed.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #3: Resident Record, Assessment, Plan of Care**RHRA Inspector Findings**

The inspector reviewed a sample of resident care files and found that 3 residents did not have their plans of care revised appropriately. The inspector confirmed that the Licensee failed to ensure that the resident was reassessed and that the plan of care was reviewed and revised at least every six months and/or when the resident's care needs change. Additionally, the inspector found that the same 3 residents did not have their plans of care approved appropriately, as there was no evidence that the plans had been approved by the residents or their substitute decision makers. The Licensee failed to ensure that all resident plans of care had been revised and approved as required.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #4: Staff Training**RHRA Inspector Findings**

The inspector reviewed the Licensee's staff training records and found that 3 staff members had not completed training on the listed topics upon hire. The Licensee failed to ensure that staff were trained as required.

Outcome

The Licensee submitted a plan to achieve compliance by July 30, 2026. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the

time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
