License Number: T0035	

About Routine Inspections
A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents. Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the <i>RHA</i>. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the <i>RHA</i>. Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the <i>RHA</i>. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists. In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices. If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas
<i>During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.</i> Focus Area #1: Complaints

RHRA Inspector Findings

The inspector reviewed the home's complaints log and found that the home had not completed all steps of a written record that reviewed and analyzed for trends at least quarterly, nor kept a written record of each review and of the improvements made in response as required.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #2: Resident Record, Assessment, Plan of Care**RHRA Inspector Findings**

The inspector reviewed a sample of resident care files and found that 6 residents did not have their plans of care approved appropriately, as there was no evidence that the plans had been approved by the residents or their substitute decision makers, or the prescribed person. The Licensee failed to ensure that all resident plans of care had been approved as required.

Outcome

The Licensee has demonstrated it has taken corrective action to achieve compliance.

Focus Area #3: Staff Training**RHRA Inspector Findings**

The inspector reviewed staff training records and found that 5 staff members had not completed training on the listed topics upon hire and 10 staff members had not completed all the annual training. The Licensee failed to ensure that staff were trained as required.

Outcome

The Licensee submitted a plan to achieve compliance by Thursday August 6, 2026. RHRA to confirm compliance by following up with the Licensee or by inspection.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.
