

FINAL INSPECTION REPORT

Under the *Retirement Homes Act, 2010*

Inspection Information

Date of Inspection: 8/31/2026

Name of Inspector: Natalie Fahey

Inspection Type: Routine Inspection

Licensee: ACC-002511 - Lev Senior Living Inc.

Retirement Home: Aberdeen Gardens Retirement Residence

License Number: S0079

About Routine Inspections

A routine inspection, performed by an RHRA inspector, is a physical inspection of a licensed retirement home. During a routine inspection, an RHRA inspector will walk through the home, speak to residents and staff, observe care services and conditions in the home, and ensure the licensee's management and staff follow mandatory policies and practices designed to protect the welfare of residents.

Following a routine inspection, the RHRA inspector prepares a draft inspection report which is sent to the licensee. The draft report may include instances where the licensee has failed to meet the standards of the *RHA*. If included, the licensee can respond to these instances and is strongly encouraged to inform RHRA of its plans to meet the standards of the *RHA*.

Following the draft report, the RHRA inspector prepares this final inspection report, incorporating any response from the licensee with their plans to meet the standards of the *RHA*. The most recent final inspection report must be posted in the home in a visible and easily accessible location. All final inspection reports from the previous two years must also be made available in an easily accessible location in the home. The licensee must provide a copy of this report to the home's Residents' Council, if one exists.

In addition to inspection reports, RHRA may provide information to a licensee to encourage improvements of their current practices.

If the licensee repeatedly does not meet the required standards, RHRA may take further action.

Focus Areas

During a routine inspection, an inspector will focus primarily on a set number of areas which have been identified as related to the health, safety and wellbeing of resident, and may take various actions to determine whether the licensee is compliant with the RHA in relating to the areas. The areas listed in this section are ones which an inspector has identified as non-compliant.

Focus Area #1: Complaints

RHRA Inspector Findings

The inspector reviewed the Licensee's complaints log and noted that a quarterly analysis of the complaints had not been completed for 2025. The Licensee failed to ensure that their complaints log was analyzed quarterly as required.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #2: Emergency Plan**RHRA Inspector Findings**

The inspector reviewed the Licensee's records of testing for their emergency plans and found that the testing for situations involving the missing residents, medical emergencies, violent outbursts and pandemics/epidemics had not been completed. Additionally, the Licensee's community partnership agreements in the event of an evacuation had not been updated since 2024. The Licensee failed to ensure that testing and review of the home's emergency plan was done annually as required.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #3: Resident Record, Assessment, Plan of Care**RHRA Inspector Findings**

The inspector reviewed a sample of residents' plan of care. The inspector found that one of the plans was not updated at the time the resident's care needs changed or every six months. The Licensee failed to ensure the plan was revised and updated in compliance with the legislation. Additionally, the inspector found that three of the plans of care had not been approved by the resident or SDM as required.

Outcome

The Licensee provided information indicating that corrective action was being taken, however, further action must be taken to achieve compliance with all areas outlined in the finding. RHRA to confirm compliance by following up with the Licensee or by inspection.

Focus Area #4: Staff Training**RHRA Inspector Findings**

The inspector reviewed a sample of training records in the areas of Zero Tolerance of Abuse, Bill of Rights, Infection Control, Whistle Blower Protection, Personal Assistive Service Devices (PASDs), Fire Prevention and Safety, Emergency Plans, Injury Prevention, Complaints, Behaviour Management, and relevant Care Services.

The inspector found that the orientation training for one new staff was not completed prior to the staff member working in the home. For the annual training files reviewed, one of the staff had not completed training since 2023 in the reviewed training areas. The home was not able to determine that orientation and annual training was being completed in alignment with the regulations.

Outcome

The Licensee must take corrective action to achieve compliance.

Additional Findings

During a routine inspection, an inspector may observe areas of non-compliance that are not related to the standard focus areas. In these cases, an inspector may cite the home for these contraventions at the time of this inspection. In addition, an inspector may follow-up on findings of non-compliance from previous inspections. Where the licensee is unable to demonstrate they have come into compliance or maintained compliance, an inspector may cite the home for these repeat contraventions at the time of this inspection.

Additional Finding#1: Falls Prevention**RHRA Inspector Findings**

The inspector reviewed the Licensee's falls records, which they are required to keep a written record of all falls, evaluate the risk of falls in the home at least annually and keep a written record of each evaluation. The Licensee failed to evaluate the falls in the home annually as required.

Outcome

The Licensee has advised it has taken corrective action to achieve compliance. RHRA to confirm compliance by following up with the Licensee or by inspection.
