Allowing Essential Visitors

An essential visitor is a person performing essential support services (e.g. Food delivery, inspector, maintenance, or health care services (e.g., phlebotomy) or a person visiting a very ill or palliative resident. In addition to a person visiting a very ill or palliative resident, there are two types of essential visitors:

1. Support Workers (Essential Visitor) An essential visitor who is brought into the home when there are gaps in services to perform essential services for the home or for a resident in the home.	Any number of support workers may visit a resident in a home.	Any number of support workers may visit a resident in a home.	Any number of support workers may visit a resident in a home.	Any number of support workers may visit a resident in a home.	Any number of support workers may visit a resident in a home.
2. Essential Caregiver (Essential Visitor) An essential visitor who is designated by the resident and/or their substitute decisionmaker and visits to provide direct care to the resident.	Maximum of two (2) Essential Caregivers per resident may visit at a time.	Maximum of two (2) Essential Caregivers per resident may visit at a time.	Maximum of two (2) Essential Caregivers per resident may visit at a time.	Maximum of two (2) Essential Caregivers per resident may visit at a time.	Maximum of two (2) Essential Caregivers per resident may visit at a time.

Scenario Matrix: Retirement Home Covid-19 Visiting Policy

<p>Allowing Personal Care Service Providers (non-essential visitor) A personal care service provider is a person who is not an essential visitor and visits to provide personal services to residents that are not being provided for medical or essential reasons.</p>	<p>Permitted if they are not living in the outbreak area of a home.</p> <p>Personal Care Service Providers employed by the home may continue to provide personal care services to residents.</p> <p>Personal Care Service Providers who are visiting or work on site as contractors are permitted to provide services in alignment with the Roadmap to Reopen.</p>	<p>Not permitted.</p>	<p>Personal Care Service Providers employed by the home may continue to provide personal care services to residents.</p> <p>Must meet baseline requirements:</p> <ul style="list-style-type: none"> - Follow required public health and IPAC measures for Personal Care Service Providers and those of the home, including wearing a medical mask and eye protection for the duration of their visit time in the home, practicing hand hygiene and conducting environmental cleaning after each appointment. - Require residents to wear a medical mask (if tolerated) during their services. - Document all residents served and maintain this list for at least 30 days to support contact tracing. - Not perform any services which require the removal of masks. <p>Personal Care Service Providers who are visiting or work on site as contractors are not permitted to provide services.</p>	<p>Personal Care Service Providers employed by the home may continue to provide personal care services to residents.</p> <p>Personal Care Service Providers who are visiting or work on site as contractors are permitted to provide services in alignment with Step 2 of the Roadmap to Reopen which states:</p> <p>Personal care services where face coverings can be worn and with capacity limits.</p>	<p>Personal Care Service Providers employed by the home may continue to provide personal care services to residents.</p> <p>Personal Care Service Providers who are visiting or work on site as contractors are permitted to provide services in alignment with Step 3 of the Roadmap to Reopen.</p>
